The Patriot

and the

Assessment Lists

For the first time THE PATRIOT has had compiled and printed at its own expense in its columns the entire assessment list of the County of Dauphin, exclusive of the City of Harrisburg. The work was undertaken and completed for the sole purpose of helping to secure more equitable assessments of all properties, and is now reprinted in book form.

THE PATRIOT has four times rendered this service to the property owners of the city of Harrisburg and the many commendatory words show that it has been appreciated and the assessments made more equitably.

1913 Triennial Assessment

List, County of Dauphin

(exclusive of Harrisburg)

Herewith is printed the assessed valuations of real estate and improvements in Dauphin county for the triennial assessment for 1913 as made by the district assessors and approved by the county commissioners. In the figures below, "A" refers to acres and "L" to lots. The name is that of the property owner, then follows the size of land, then the valuation of land and improvements and finally a description of the property. Some of the assessors' books did not contain this description.
